

The Bright Star Alliance, I Am Destruction

I've sailed the seas for a thousand years
In my galleon... I have beckoned death
I call out...
To my CREATURES OF THE DEEP
My sword will reign until the end
As my plagues of wasps INFEST THE EARTH
And burn pain and fear into the eyes of every man
Drown the bodies in the sea (drown them all)
Drown the bodies in the sea (drown them all)
Drown the bodies in the sea (drown them all)
Drown the bodies in the sea
Drown the bodies in the see (drown them all)
Drown the bodies in the see (drown them all)
Drown the bodies in the see (drown them all)
Drown the bodies in the sea
"Reduce us all to ash
Let the breeze sweep us away
And when I'm gone
We'll just start over";
You should have know that I am
The unforgiving on, forgiving one
By night my army spreads the blood of the forsaken
I am the face of death
I bare the hands of destruction
Face the martyr and feel the cleansing
"Reduce us all to ash";
Let the breeze sweep us away
And when I'm gone
We'll just start over";
I want it, You need it, I've Had it, You've got it
I want it, You need it, I've Had it, You've got it
I want it, You need it, I've Had it, You've got it
I want it, You need it, I've Had it, You've got it
I want it, You need it, I've Had it, You've got it (all, all, all)
I want it, You need it, I've Had it, You've got it (all, all, all)
I want it, You need it, I've Had it, You've got it (all, all, all)
I want it, You need it, I've Had it, You've got it
"Reduce us all to ash
Let the breeze sweep us away
And when I'm gone
We'll just start over";
Now it's clear it's so clear to me
Drown the bodies in the sea, drown the bodies in the sea
