

The Buggles, I Am A Camera

Memories how they fade so fast
Look back there is no escape
Tied down now you see too late
Lovers they will never wait

I am a camera
I am a camera

Take heart I will never let you go
If you wanna let your feelings show
Lovers all how they never broke your heart
You lose them if the feeling starts

I am a camera, camera, camera
I am a camera, camera, camera

There by the waterside
Here where the lens is wide
You and me by the sea
Taken in tranquility

Take heart I will never let you go
If you wanna let your feelings show
Lovers all how they never broke your heart
You lose them if the feeling starts

I am, I am a camera
I am a camera, I am a camera

I am, I am a camera
I am a camera, I am a camera

There by the waterside
Here where the lens is wide
You and me by the sea
