

The Buggles, I Love You (Miss Robot)

I love you miss robot
Electronic tease
I love you miss robot
Programmed just to please

You make love like a metronome
Don't drive too fast when you take me home
Touch the seam on your silver skin
That feels so hard when you take me in

I love you miss robot
Programmed just to please
I love you miss robot
Electronic tease

Talk of love on the telephone
When your voice fades there's a paying tone
Force the coin and you're there again
D.I. the loneliness brain to brain

I love you miss robot
Programmed just to please
I love you miss robot
Electronic tease

I must leave miss robot
Give your love to me
I love you miss robot
Do you love me?

I love you miss robot
Electronic tease
I love you miss robot
Programmed just to please

I must leave miss robot
Give yourself to me
I love you miss robot
Do you love me?
