

The Business, Get Out While You Can

You never question, you never ask why
You never listen, you never try
Never wanting to make a stand
With people like you humanity's damned

(Chorus:)

Get out while you can
Get out while you can
Get out while you can
Get out

Bomb could drop, but you don't care
The cupboards empty, but you won't share

People repressed but you don't see
The normal attitude sickens me
