

The Business, Going Down In History

We have been down to the bottom
Now we are back where we belong
We are telling you now this is for real
We know now right from wrong

(Chorus:)
You are going down in history
The song remains the same
But this time on our own terms
So no-one gets the blame

If you are looking for sell-out music
Well dont you look this way
We have paid the price since our time began
Now we are gonna make it pay

(Chorus)

Whatever happened to the people
That we heard talking so loud
They are nowhere to be seen now
Our followings made us proud

(Chorus, etc. repeat)
