

# The Buzzcocks, Give It To Me

When I look into your eyes  
I can see the fire of desire reflect to me  
Give me your love  
Give it to me Give it to me

Holding me the way you do  
I just can't deny that you feel the same way too  
Give me your love  
Give it to me Give it to me

Don't you know that I care about you  
But I just can't wait  
Give it give it to me

When you're lying next to me  
I just get the urge to consummate extacy  
Give me your love  
Give it to me Give it to me

Holding me the way you do  
I just can't deny that you feel the same way too  
Give me your love  
Give it to me give it to me

Don't you know that I care about you  
But I just can't wait  
Give it give it to me

Look at me while I tell you 'bout love  
Don't you know that you should never doubt love  
With you near I feel you warm inside  
When it comes to the real thing there's no compromise

Don't you know that I care about you  
But I just can't wait  
Don't you know that I care about you  
So why should we hesitate  
After all we're in love with each other  
So why should we wait

Give it give it to me
