The Buzzcocks, Give It To Me

When I look into your eyes
I can see the fire of desire reflect to me
Give me your love
Give it to me Give it to me

Holding me the way you do I just can't deny that you feel the same way too Give me your love Give it to me Give it to me

Don't you know that I care about you But I just can't wait Give it give it to me

When you're lying next to me
I just get the urge to consumate extacy
Give me your love
Give it to me Give it to me

Holding me the way you do I just can't deny that you feel the same way too Give me your love Give it to me give it to me

Don't you know that I care about you But I just can't wait Give it give it to me

Look at me while I tell you 'bout love Don't you know that you should never doubt love With you near I feel you warm inside When it comes to the real thing there's no compromise

Don't you know that I care about you But I just can't wait Don't you know that I care about you So why should we hesitate After all we're in love with each other So why should we wait

Give it give it to me
