

# The Byrds, It Won't Be Wrong

Every time I see you smile, come to me, don't be long  
Let me tell you how my heart goes wild.  
Please let me love you and it won't be wrong

Every time you're in my arms, come to me , don't be long  
You know that I'll never do you no harm  
Please let me love you and it won't be wrong

Chorus:

Let me love you and then you'll see, come to me, come to me  
Let me show you once and we'll be free  
Please let me love you and it won't be wrong

Repeat first verse

Repeat chorus
