

# The Byrds, Wait And See

Watch out what you say  
.....in my way  
I'm gonna get that girl  
Wait and see  
I saw her today  
She came by my way  
I'm gonna win her love  
Just for me  
And together we'll go walking  
In the evening still be talking  
She's the kind of girl you never...  
Have you seen her eyes  
Do you realize  
How much a love like that can mean to me  
I know she knows me  
Today I could see  
The way she.....her head when she walked by  
And before the night is over  
I think I'm gonna love her  
And if it lasts forever I don't care  
And now she is mine  
I told you all the time  
How could I let a girl like that go by  
And before the night is over  
I think I'm gonna love her  
And if it lasts forever I don't care
