

# The Car Is On Fire, What life's all about

And I said to her - girl I can't tell you  
What life is all about  
I suppose it's something that would kill you  
The second after you found out  
But I know that knowing you  
Is a great experience  
The greatest I will have  
And I know that the only one I've ever  
Truly loved - it was my cat  
I'm going to try a little harder  
I guess it's worth a try sometimes  
(Do you know? The truth's not beautiful at all I wish I hadn't know)  
Buying new CD's, listening to music,  
Going out with friends and watching movies  
Time will kill us  
The best thing I can do's to  
Spend a whole day  
Killing time with you, my Dear  
New CD's, listening to music,  
Going out with friends and watching movies,  
We'll be happy ever after,  
Listening to music,  
Hoping one day we will enter happiness
