

# The Cardigans, Cloudy Sky

Words/Music: Svensson

I'd catch some stars for you  
and just for you  
I'd paint the grey sky blue  
and just for you  
so don't tell me you want the rain  
from a cloudy sky  
to wash away the pain  
that I've given you again  
I've always tried to find  
what satisfies your mind  
but I will never know  
where you are to go  
but I want you to know  
do you want a golden ring  
I would buy you anything.

I'd read some poems for you  
just for you  
I hope they won't make you blue  
like they used to do  
so please tell me they're like the rain  
from this cloudy sky
