

# The Carpenters, Good Friends Are For Keeps

Hey now don't let your empty room ever get you down

You can fill the silence with a smile

And don't let the crowds on the street

Make you feel like you are just a stranger in town

If you feel happy,

Or if you wanna weep,

Or you wanna warm word before you sleep

Remember,

Good friends are forever

Good friends are forever

Good friends are for keeps

Good friends are forever

Good friends are forever

Good friends are for keeps
