

The Carpenters, Leave Yesterday Behind

When the morning sunrise
Becomes a magic show
Before your very eyes
And all the sounds of life
Begin to harmonize
You hear a song of hope
Surround your senses
And feel the promise of a brand new kind of world
Lose your defenses
Unlock your mind
Unwind and follow me
Come let me help you see
How to find the way to leave yesterday behind

We should be together
when we're this close we're bound to work it out somehow
We found a dream to share
Don't lose it now
Just let my song of love
Surround your senses
And feel the promise of a brand new kind of world
Lose your defenses
Unlock your mind
You know I love you
(Love you)
Come let me show you
(show you)
How to find the way to leave yesterday behind
