

The Carpenters, You'll Love Me

They say we're too young to ever know a love

But your everything that I've been dreaming of

And I know you'll stay and I know you'll love me

They say before long you'll walk right out my door

But I know their wrong; you're mine forevermore

And I know you'll stay and I know you'll love me

When something's right you can feel it in your heart

Our love is right, and I know we'll never part

Many years will come and many years will go

And will show them all just how our love did grow

And I know you'll stay and I know you'll love me

Oh yes I know you'll stay and I know you'll love me
