

# The Chainsmokers, Let You Go (feat. Great Good

You end up alone after all that you've done  
All that you've paid for  
Did you get what you wanted?  
Loaded the gun with all you were made of  
When you're alone,  
People don't think you know what you're made of,  
You've been with me,  
It's not up to see, it's all that you paid for  
I'll find a way up, see you through what came to pay for  
All our love, can we last? Isn't it what it's made for?

You were there for me  
And I was there for you  
No, never let you go!  
You will always be the one  
That I really love  
Never let you go!

You're here in the way,  
How could you stay after that you've paid for  
Leave it in time, won't let you wait  
How could you be assured?  
We're holding on our hope  
Saying that we are trying to find home, home  
I think I'm back again,  
I've come to understand my will  
Tell me that I can't pretend  
I hear that you care about your stuff,  
but the most of things might feel rough  
And let you go

Holding a room for you /2x  
Holding, holding a room for you

You were there for me  
And I was there for you  
No, never let you go!  
You will always be the one  
That I really love  
Never let you go!  
Let you go! /4x

Holding a room for you!

You were there for me  
And I was there for you  
I remember times like that!  
You will always be the one  
That I really love  
Never let you go!

Let you go! /4x
