

# The Charlatans, Forever

Forever you're my foundation  
I know I can keep  
Told I was good for nothing  
Branded a cheat  
Now I know why you listen  
I can help you anytime  
Love is all there is  
I wonder what people do with our lives  
Hey  
Oh! I wonder what you people do with your lives  
Oh! I wonder what you people do with your lives  
Oh! I wonder what you people do with your lives  
Once more this will be forever

I can't withhold secrets  
I know I'm going where the sun always shines  
I know, my son, we've made it  
It can't escape my mind  
I know my star, I know my star  
Is a brighter star, brighter star  
Forever be in my arms  
Forever be in my arms

This could be a myth in the making  
Under a spell  
Down to ambition  
I guess you could even call it a miracle  
I see my true love coming  
My little bundle of joy  
I can help you realise  
It's us and us only

I know I'm as good as my neighbour  
A starter for ten  
I can't promise you I'll always need you  
I promise I'll always be there  
Oh! I wonder what you people do with our lives  
Oh! I wonder what you people do with our lives  
Hey, oh, I wonder what these people do with their lives

When you find it you'll feel it  
I'll give you all my love  
Hold it, don't leave it, misuse it  
As long as you believe enough  
My mind is multiplying  
I have so much to give  
I wouldn't underestimate you for the way you want to live  
Forever, Forever, Forever  
Forever, Forever, Forever  
Forever, Forever, Forever  
Forever
