

The Chemical Brothers, Hold Tight London

So do, i warn you,
I say things and died, i hold you,
Out of inner spirit, it's all right
It is you and me in our night,

You're a ghost in the doorway,
I can see through, but I hold tight,
Ill just stay on holding until it hurts,
I just want you to know your lovely,

You're a ghost in the doorway,
I can see through, but I hold tight,
Ill just stay on holding until it hurts,
I just want you to know your lovely,

Dont worry, nothing can go wrong,
Dont worry, nothing can go wrong,
Dont worry, nothing can go wrong,
Dont worry, nothing can go wrong,
(nothing!!)
