

The Chemical Brothers, The Pills Won't Help You

Thought we were going
And go up the field a ways
And join all the other living souls
But you never came

Robbed of your fortune
You get disappointments in life
You're probably poisoning your body
I hope you're alright

In a moment of fear
You dig in your heels
The pills won't help you now
Once you're crying

Thought you were going
Go up the field a ways
Join all the other living souls
But you never came

Robbed of your fortune
You get disappointments in life
You're probably poisoning your body
I hope you're alright

In a moment of fear
You dig in your heels
The pills won't help you now
Once you cry

Robbed of your fortune
You get disappointments in life
You're probably poisoning your body
I hope you're alright

In a moment of fear
You dig in your heels
The pills won't help you now
Once you cry

In a moment of fear
You dig in your heels
The pills won't help you now
Once you cry.
