

# The Clash, One Emotion

One emotion  
It's all over the place  
You let it get out  
It cuts in your face

One emotion  
Back of a shop  
Everybody wants what the next guy's got

One emotion  
One emotion  
All you ever know  
Is your narrow life  
One emotion

One emotion  
Don't think I don't trust  
People trample people on the daily bus

One emotion  
Fighting through the night  
And if you can keep your buttons down  
When it gets right

One emotion  
One emotion  
All you ever know  
Is your narrow life  
One emotion

One emotion  
Smokin' through the town  
Banging on the doors  
And (???)

One emotion  
Boy meets girl  
Smashing (???)  
It's that kind of world

One emotion  
One emotion  
All you ever know  
Is your narrow life  
One emotion

One emotion  
Moving out loud  
Better get your weapon ready  
Walking through the crowd

One emotion  
Back of a shop  
Everybody wants what the next guy's got

One emotion  
One emotion  
All you ever know  
Is your narrow life  
One emotion
