

# The Colour, Save Yourself

Well I told you before I believe in beginnings

I'll say it again we were cursed from the start

Now if this is a joke, someone better start grinning

Don't tell me girl that it's all in my heart

Tell me how are you gonna save me?

When you can't save yourself

Tell me how are you gonna save me?

When you can't save yourself

(Shot me dead)

The dawn broke so quick we forgot of the evening

The moon turned so red they forgot of the dawn

Better learn how to swim

Like you learned about sinking

Cold little girl, gonna reap what you've sown

Tell me how are you gonna save me?

When you can't save yourself

Tell me how are you gonna save me?

When you can't save yourself

(Shot us all dead)
