

The Cooper Temple Clause, Been Training Dogs

been training dogs again
to bite your little princess
and making sure they make a scene
running errands all the way
communicate in codes
you've just gotta make the in-roads

holding on - to what you've got
making plans - just to stay alive
doing time - oh you bet you will
i'm doing mine - by the side of the road
making out - cos i'm making good
what it's all about - like i said i would
then you realise - well, look who's laughing now

We take pride in our work
the key's the execution
and, hey that's what we had in mind
but we're not just having fun
i wouldn't wanna be ya
cos we're drawing blood if we see ya

and we're not afraid to use animals
or anything else that'll tear itself a hole
yeah we'll be just like dumb fucking animals
if that's the kind of game you wanna play
