

# The Cooper Temple Clause, Been Training Dogs

Been training dogs again  
To bite your little princess  
And making sure they make a scene  
Running errands all the way  
Communicate in codes  
You've just gotta make the in-roads

Holding on - to what you've got  
Making plans - just to stay alive  
Doing time - oh you bet you will  
I'm doing mine - by the side of the road  
Making out - cos i'm making good  
What it's all about - like i said i would  
Then you realise - well, look who's laughing now

We take pride in our work  
The key's the execution  
And, hey that's what we had in mind  
But we're not just having fun  
I wouldn't wanna be ya  
Cos we're drawing blood if we see ya

And we're not afraid to use animals  
Or anything else that'll tear itself a hole  
Yeah we'll be just like dumb f\*\*king animals  
If that's the kind of game you wanna play
