

# The Corrs, The Ride

in the east  
they can meditate  
they can recreate the sound of OM  
and bring us home  
i think i'll go there someday  
maybe for a holiday  
maybe just light a candle  
and take a seat for the ride

you don't need no money to fly  
to truly fly away  
you don't need no car to truly ride  
to truly ride away

in the west  
we think we're the best  
we've shown the whole wide world  
that money is all we care for now  
someday the scientists will see  
there's no such thing as gravity  
they'll all just light a candle  
take a seat for the ride

you don't need no money to fly  
to truly fly away  
you don't need no car to truly, truly ride  
to truly ride away

as you ascend in silence  
all doubt behind thee  
you reach the summit my friend  
and find your destiny
