The Cranberries, Do You Know

I need you awhile My this was smile My this was smile

I will be strong
I will carry on
And I'll always hold on to my smile

What would you say? Would you say that it's sad for feeling this way?

What would you do if you were in my shoes? In my

Do you know what I think? Do you know what I think about it? About it

I guess you don't know anything You don't know anything about it About it

Do you know what I think? Do you know what I think about it? About it

I guess you don't know anything You don't know anything about it About it

Dust in my eyes I realize That I'm thinking Of you

I fit my car I will go far I'll be lonely For you

What would you say? Would you say that it's sad for feeling this way?

What would you do if you were in my shoes? In my

Do you know what I think? Do you know what I think about it? About it

I guess you don't know anything You don't know anything about it About it

Do you know what I think?
Do you know what I think about it?
About it

I guess you don't know anything You don't know anything about it About it
