

The Cranberries, The Pressure

when I see your face
all of my worries
dissipate from me
dissipate from me

when I see your face
all of my worries
dissipate from me
disintegration

when I was feeling the pressure
you know I feel under pressure
when I was feeling the pressure
you make me feel so much better

sometimes I wake up in a bedroom
walking into many brick walls
so many brick walls
so many brick walls

sometimes I wake up in a bedroom
sometimes I just stare into space
how big is this place?
how big is this place?

Czuase I was feeling the pressure
you know I feel under pressure
when I was feeling the pressure
you make me feel so much better
