

The Creatures, I Was Me

I can't tell how it all
First began
Just a face at a window
Familiar
So I walked up to see that I was wrong
That's when I first asked if
I was me

Same lips, same hair,
The same stare
When she laughed she was sipping
My favourite drink
With a friend I had known since my birth!
It's not fair

I was me
Not she
Everywhere that I go
I see me
In a life that I had
Not long ago
I'm not recognised or heard but I swear!
I was me I was me
I was me!

I walk through the dawn
In a daze
Same lips, same hair,
The same stare
It's on the tip of my tongue oh oh yeah!
I swear I was me

I was me!
I can't tell how it all
First began
Just a face at a window
Familiar
