

# The Cribs, I'm A Realist

I'm a realist  
I'm a romantic  
I'm an indecisive piece of shit  
I'm a realist  
I'm a romantic  
I am indecisive and that's about it  
and you dream that's the same thing  
that's the same life you lead  
I don't agree and so you drink  
don't wanna think  
that's cos your mind is already made up  
I'm a realist  
I'm a romantic  
I'm an indecisive piece of shit  
I admit it  
I'm up to my old tricks  
did you see her eyes (oh no I tried)  
she looked surprised  
and you dream that's the same thing  
that's the same life you lead  
I don't agree and so you drink  
don't wanna think  
that's cos your mind is already made up  
how you dream that's the same thing  
that's the same life you lead  
I don't agree and so you  
drink don't wanna think  
that's cos your mind is already made up  
no  
I know that it's only a matter of time  
before you know it I'll be leaving town  
see it in my eyes  
no one will do  
no one will ever do  
I know that it's only a matter of time  
before you know it I'll be leaving town  
seen it in your eyes  
no one will ever do  
no one will ever do for you
