

# The Cross, Liar

Hey  
When my lady walks into the room  
The lights come on to her sweet perfume  
I didn't know the devils by her side  
There I stood I had nothing to hide

My love could teach the blind to see  
My love's the wildest mystery  
My love said she'd be the one  
Now I know  
Baby you're a liar  
You're a liar

I wasn't watching for the danger signs  
And I never read between the lines  
She says c'mon boy can you do your thang  
So I turned around still wondering

When my love dances she makes me cry  
My love dances with me tonight  
My love said she's be the one  
But now I know  
Baby you're a liar  
Oh you're a liar  
A liar  
But I'm still burning with desire

With the look of a panther  
I got lost in the jungle  
No I can't help myself again  
I can't help myself  
Baby you're a liar

My love could teach the blind to see  
My love's the wildest mystery  
My love said she'd be the one  
Now I know  
Baby you're a liar  
Oh yeah you're a liar  
A liar  
I'm burning with desire  
Oh baby you're a liar  
Oh baby you're a liar (you're a liar)  
Oh baby you're a liar (you've bin known to veer from the truth)

Lies  
You're a liar  
You're telling me lies  
Baby you're a liar  
Lies  
I'm burning with desire  
Lies  
Baby you're a liar
