

# The Cross, Manipulator

And here comes trouble

Manipulator

Can you see the way he twists you round his little finger

Manipulator

Dressed to tease - if looks could please I'll see you later

Cold green eyes you've grown to despise

Manipulator

They'll stab your back but don't look back

Manipulator

He pushes the bell with his finger

Don't you stop - don't you linger

And here comes trouble

Jealousy was not his history

Come on now how low can you go

Not much lower but lower than low
