

# The Crystal Method, Wide Open

I have been informed that it's totally wide open (x2)

Open like what?  
That's you question and your answer  
That's your swallow and your spit

Open like what?  
Open like like sky? Well, even the clouds got that closed in

Open like what? (x2)  
Open like whhhhaaat  
But you don't get open, you just are open

Well, open like what?  
Mmmm ... Open like a child's mind?

But then you start talkin' (x2)

Open as a state of just being  
Ain't no questions, ain't no time of the day

Well ...  
Open like what?

I'm totally wide open

Open like what?  
Open like a child's mind?  
But then you start talkin'  
Open like a child's mind?  
But then you start talkin'  
Open like a child's mind?  
But then you start talkin'  
But then you start talkin'

Totally wide open  
know how to shut it down
