

# The Cult, Take The Power

You love it, you need it  
You taste it and you'd breathe it  
You want it, you feel it  
You gotta receive it

You hate it, can't leave it  
You shoot it, you cheat it  
Reject it, respect it  
Don't try to deceive it

Take the power, we're all free, yeah  
Take the power, you gotta let it bleed, yeah  
C'mon, take the power, you gotta just believe, yeah  
Take the power, it's all in me, it's all in me

You love it, you need it  
You taste it and you breathe it  
You want it, you feel it  
You've got to receive it

You hate it, can't leave it  
You shoot it, you can't cheat it  
Reject it, respect it  
Don't try to deceive it

Take the power, we're all free  
Take the power, you gotta let it bleed  
C'mon, take the power, gotta just believe  
Take the power, it's all in me, it's all in me

Take a little leap of faith  
Kiss the heart that hides this face, it never fades
