## The Cure, Torture

I'm in the room without a light The room without a view I'm here for one more treacherous night Another night with you It tortures me to move my hands To try to move at all And pulled My skin so tight it screams And screams and screams And pulls some more

Hanging like this Like a vampire bat Hanging like this Hanging on your back I'm helpless again

My body is cut and broken It's shattered and sore My body is cut wide open I can't stand anymore It tortures me to move my hands To try to move at all And pulled My skin so tight it screams And screams and screams And screams for more

Hanging like this Like a vampire bat Hanging like this Hanging on your back Oh, it's torture And I'm almost there It's torture But I'm almost there

It's torture But I'm almost there It's torture But I'm almost there
