

The Cure, Underneath The Stars (Denver version)

Floating here like this with you
Underneath the stars aligned
For 13 billion years the view
It's beautiful, and ours alone tonight
Underneath the stars
Spinning round and round with you
Watching shadows melt the light
So shining from our eyes, a tear
Another space is ours alone tonight
Watch as shadows melt
The waves....break
The waves....break
Whisper in my ear, a wish
"We could drift away so far"
Your voice inside of my head like this
It's infinite, the hours alone tonight
We could drift away
Flying here like this with you
Underneath the stars aligned
For 13 billion years the view
It's beautiful, and ours alone tonight
Underneath the stars
(swirling echo voice: Everything is gone?)
Everything Gone
???? still to ????
Together as now
Forever as one
In each other's arms
So near and so far
Together as now
Underneath the stars
As the waves....break
