

# The Derek Trucks Band, Revolution

People, it's just a dream away  
I see us walking to a better day  
It'll be alright when tomorrow comes  
I feel the heat of a revolution

One world forever  
One world I see  
One world forever and ever  
It's alright with me

Daylight coming like a wonder drug  
You've got to live for what you love  
It'll be alright when tomorrow comes  
I feel the beat of a revolution

One world forever  
One world I see  
One world forever and ever  
It's alright with me
