

# The Dingees, Votes And Violence

They got me runnin' from 56 hope road  
Seems my world came crashin' down a moment ago  
I got this banner cross my back that says I'll be okay  
And save the dyin' for some other day  
When you're walkin' in my city you gotta duck and dive  
Cuz in the city bullets fly  
They put a gun in the hand of a juvenile  
When you look them in the eye things get wild  
Took a little detour down to washington boulevard  
Dreadlocks in the moonlight down in lee perry's yard  
I'm in the wrong place at the right time  
No longer in the line of fire now I'm stayin' alive

Hit it hit it get ready to roll  
Your world's been fallin' down now it's startin to show

You got your reasons hidden deep behind your eyes  
Your blowin' up mines crossin' over police lines  
They're gonna fight against us but they will not overcome  
No one's touchin' my life till my job gets done  
When you're walkin' in my city you gotta duck and dive  
Cuz in the city bullets fly  
They put a gun in the hand of a juvenile  
When you look them in the eye things get wild  
Now this bounty been placed upon my head  
What does it really mean if a man wants me dead?  
If I'm gunned down in the streets of trenchtown  
Will the people come around when they hear the sound?
