

The Doobie Brothers, Just In Time

Patrick Simmons

Just when you think you've seen your darkest night
Look around
Over there someone's waiting, right now
Right now, just to make things right

Love comes just in time
Without lovin' the sun don't shine
Love comes just in time
Oh baby, love is all that we wanted
Oh baby, love is all we need

And when you think that love has let you down
And every place you go it seems like such a lonely town
You gotta just run away
As fast as you can
Reach out now, baby
And love will take your hand

Love comes just in time
Without lovin' the sun don't shine
Love comes just in time
Oh baby, love is all that we wanted
Oh baby, love is all we need
