i, i know that you've been holding that bag for me

yes, she spoils me like im a baby

and she holds nothing back from me

Saturday nights, im her baby

she's pushing her body like a glock

making that tick go tock (yep)

she twist at twelve, down to the ground

and she doin it all night long for the boy

she do it nice and low

but just for the boy

two free songs

but just for the boy

i call her boomerang

when she doing her thang

she throw it, then she bring it right back, back

its just her and patron, all night long

but just for the boy

i get tipper love

I done spent so much, that the girls just show me love now

she show me tipper love

I done spent so much that i don't even pull out dubs now

she show me tipper love

i ain't saying I'm a freak, but i gotta see her face

once a week now

she show me tipper love

Yeah she don;t mind, even if i come thru at peak time

she give me tipper love

she give me tipper love
