

The Drums, I Don't Want To Go Alone

The dream you told me
Well I usually get bored
But this one I can't ignore
And oh
If I was on my death bed
Well, would you leave me
Walk out the door

I don't want to go alone /2x

I guess if I think about it
I've had the same fear all my life
And loving you can take
Won't make anything different in my world

I don't want to go alone /2x
