

The Exies, What You Deserve

Failing
and unsure
why am I losing my nerve
Wasting my time
why do I only see this through the hurt

(chorus)
I cant get it out of my head
I cant get it out that
I do this to myself
me and no one else
So help me
tell me how to break free
I'm to blame
and that's what really hurts
That's what really hurts
You get what you deserve

Jaded and broken
Out of place
waiting my turn
Guilty
fractured
And like you I don't know the answer

(rpt. chorus)

I cant get it out of my head
I cant get it out of my head
I hear the words that you said to me

I cant get it out of my head
I cant get it out of my head
I hear the words that you said to me

And I do this to myself
me and no one else
So help me
tell me how to break free
I'm to blame
And that's what really hurts
That's what really hurts
You get what you deserve
