

The Exploited, Addiction

I take smack and I take speed
It helps me get by it helps my needs
When you're down there's no way out
Nobody to hear your body shout
Shaking and twitching
Shaking and twitching
Addiction
Shaking and twitching falling about
There's no help nerves worn out
Had two breakdowns in four years
But when he comes down his mind's not here
Addicted to this addicted to that
Can't cure myself of this and that
I take some more and there is no pain
Then I feel alright I'm out of my brain
Have a line go on snort one more
Drugs o/d you collapse on the floor
In an ambulance with the siren on
It's 5 am you're dead
