

The Exploited, Alternative

Something's happened what's gone wrong
Going down the dole got to sign on
Millions of kids with nowt to do
You better watch out they're after you

Alternative

I don't wanna join the army

Alternative

I know it's a waste of time

Alternative

No alternative is what they say

Alternative

The choice is mine

Politicians what do they care

They're all money grabbers they're after their share

They don't even care if you get shot

Cause there ain't no way they'll be there

Do you really want to die

Alternative

Kill other people just to survive

Alternative

Only the dead have their freedom

Alternative

It's the living that's got to suffer most

Alternative
