

# The Exploited, Don't Forget The Chaos

See those missiles in the air  
Where did they come from  
No One cares  
What are they there for  
What do they do  
They kill millions of people  
Like me and you  
DEATH AND DESTRUCTION AND DON'T FORGET THE CHAOS [x4]  
Death and destruction Anguish and tears  
Nuclear fallout  
And acid like rain  
Why do we have them  
What is their need  
The government said That they are there to keep peace  
See those missiles in the air  
Where did they come from  
No One cares  
What are they there for  
What do they do  
They kill millions of people  
Like me and you
