

The Exploited, Fuck The System

It doesn't really matter
What you've got to say
They never fucking listen
To you any way

[Chorus]
So fuck the system
You can bring it down
So fuck the system
We can bring it down
Future is chaos and anarchy
The misery continues
It's the government way

[Chorus]
So fuck the system
You can bring it down
So fuck the system
Chaos will bring it down
Get up and stand up
And fight back now
They didn't want to listen
But they'll listen now

[Chorus]
So fuck the system
You can bring it down
So fuck the system
We can bring it down
Thousands of homeless
And more each day
The misery continues
It's the government way
Fuck the government

[Chorus]
So fuck the system
You can bring it down
So fuck the system
Chaos will bring it down
