

The Exploited, Now I'm Dead

Seen the ad on my tv set
Join the army be a man
Join the army learn new skills
Learn to kill and maim your friends
Now i'm dead
And nobody cares
It's part of the job
British soldier on tour of ulster
Who's the enemy who's the foe
Sent to the falklands
It's miles away
I didn't really want to go
Now im dead
And nobody cares
It's part of the job
On the news
In my living room
Soldier killed by the ira
It happens so often now
That people just don't even care
