

# The Fall, In These Times

A flat season - vision gone  
Picture frame it, and say so long;  
My Aqua-cat is where it's at and new to mammal range  
Buy you know it would never suit, territories Alpine

In These TIMES - Meeowww  
In These Times - Fishcat Mother  
In This Time - Spectral Filter  
In These Times - A Feline Nutter

In these times;

A Man down South, he did go out and he did kill fifteen  
What the papers could not grasp or work out, was his life  
in a Flea brain;

In These Times - Universal Tepid  
In These Times - Stagnant Mind  
In This Time - And in these times  
These Times - They're both the same

Diluted Jesuits pour out of mutual walkmans  
From Elland Road to Venice Pensions and down  
the Autobahns;

In This Time - If That's it I'm leaving  
In These Times - Leave this planet fast  
In These Times - It affects my sleeping  
In This Time - My dreams are one to miss  
Ones to be avoiding  
In times like this

I often hope in days ahead my gossamer front gates,  
will keep out the trash in which my psychic streets' emershed;

In These Times - Spectral Filter  
In These Times - In Your Midst  
In These Times - This song's a belter  
In This Time - For times like this

In These Times - I picture framed pre-teen rap gangs,  
with alsatians, Scapa flow steel became  
inexpensive

A first season - vision gone  
Picture frame it - and say so long  
They say 'Give up Buster' - Cram it down  
But I grow stronger, and break their Midszzzzzzzz
