

The Fashion, Letters From The Ambulance

Don't you know were comin' back around?
Cause that's the only way that we can get around now
Don't you know were comin' back around?
Cause these old legs took one last dance in the back of the ambulance
We've spend years in the hospital
But there's no pill for the kinda stuff that we've got
And we never really cared a lot
But as it turns out it makes no sense so let's shut down and put the lights out
But as it turns out it makes no sense so let's shut down and put the lights out
It feels alright to say goodnight!
We'll be back when you hear that sound
Of the siren from the end of the road now
We'll be back when you hear that sound
Cause these old legs took one last dance in the back of the ambulance
We've spend years in the hospital
But there's no pill for the kinda stuff that weve got
And we never really cared a lot
But as it turns out it makes no sense so let's shut down and put the lights out
But as it turns out it makes no sense so let's shut down and put the lights out
It feels alright to say goodnight!
But as it turns out it makes no sense so let's shut down and put the lights out
But as it turns out it makes no sense so let's shut down and put the lights out
It feels alright to say goodnight!
But as it turns out it makes no sense so let's shut down and put the lights out
But as it turns out it makes no sense so let's shut down and put the lights out
It feels alright to say goodnight!
But as it turns out it makes no sense so let's shut down and put the lights out
But as it turns out it makes no sense so let's shut down and put the lights out
It feels alright to say goodnight!
