

# The Features, Two By Two

I will love you till the sun don't shine  
Hold you in my arms and call you mine  
United as the states divide  
We're gonna make it if we try

We can work it all out  
It's not what it seems  
Holding on to your love  
Holding on to my dream

When you call my name I will reply  
On my trusty heart you can rely  
No matter when no matter where  
When you call my name I'll be right there

Two by two they came  
Things will never be the same
