

# The Flaming Lips, Placebo Headwound

Where does outer space end  
it's sort of hard to imagine  
is it real? Is it nothin, nothin?  
Cause it's not so clear anymore to me....,

Why do birds always fly south  
when sometimes its warm in yer headwound  
is that nothin? Nothin?  
Cause its not so clear anymore to me...  
And if God hears all my questions  
well how come there's never an answer?  
Is it nothin, nothin?
