

The Fold, Gravity

Let's start at the beginning of this story
I was just a boy with nowhere to call home

There I was building houses on the sand
I could see that I was only running circles in my mind
It just goes on and on and on until it finally catches up to me
Like gravity it takes me round and turns me upside down

That's when it all came screaming back

Just like gravity, what draws you to me
Someone I didn't know I needed
It's like gravity, and it's stronger than me
I need you here

There you were in your perfection looking on
You see that I can only run in circles for so long
You just press on and on and on until you finally catch a grip on me
Like gravity you take me down and turn me upside down

That's when it all came screaming back

Just like gravity, what draws you to me
Someone I didn't know I needed
It's like gravity, and it's stronger than me
I need you here

When will you be able to see past your own hands?
I'm taking down, empty pictures that we used to hold close, before you

That's when it all came screaming back

Just like gravity, what draws you to me
Someone I didn't know I needed
It's like gravity, and it's stronger than me
I need you here
