

# The Four Lads, Put A Light In The Window

There's a house, on the corner  
On the corner of the street  
In the house you're the pretty  
The pretty little gal  
Who'll make my life complete

[Chorus:]

Tonight, tonight put a light in the window  
To prove that you love me let it shi-i-ine  
Tonight, tonight put a light in the window  
Tonight's the night I'm gonna make you mine

Gonna go tell your mother  
Baby brother, father too  
Let them know there's no other  
No there's not another one  
Who'll love you like I do

[Chorus]

Dum dum dum dum dum dum dum ditty dum dum dum  
You pretty little gal you're more than I deserve  
Dum dum dum dum dum dum dum ditty dum dum dum  
Gonna climb the stairs, gonna ring that bell  
Before I lose my nerve

Got a ring for your finger, third finger of your hand  
Put a light in the window  
Cause tonight you're gonna get a golden wedding band

[Chorus]

Oh tonight's the night I'm gonna make you mine  
Put a light in the window  
And my pretty little gal you'll make my life complete
